

LEGAL COUNSEL FOR YOUR AI TRANSFORMATION

Strategy and tooling *are only half the picture.*

When Morpheos partners with you to adopt AI, the build is one workstream — the legal architecture is the other. **AI governance, privacy, IP ownership of model outputs, vendor risk, employment policy, privilege preservation, and regulatory exposure** have to be engineered in alongside the technical build. Falcon Rappaport & Berkman doesn't just advise on AI — the firm operates an AI-native legal practice. We embed alongside Morpheos engagements so the legal architecture and the build move together.

HOW FRB INTEGRATES WITH THE MORPHEOS ENGAGEMENT

Discover · Strategize · Implement · Adapt

i. DISCOVER	ii. STRATEGIZE	iii. IMPLEMENT	iv. ADAPT
Data classification. Privilege and confidentiality mapping. Identification of regulated workflows (HIPAA, GLBA, state privacy, sector rules). Vendor and tooling legal review.	AI governance and acceptable-use policy. Board- and committee-level risk framing. Responsible-use principles aligned with NIST AI RMF, the NY RAISE Act, or other applicable regulations.	Vendor and SaaS contracts. Training-data licensing. IP assignment of model outputs. Employment policy updates. Customer-facing terms, disclosures, and consents.	Incident response and breach counsel. Regulatory monitoring across federal and state AI law. Dispute resolution and litigation as the framework matures.

Christopher D. Warren

NJ MANAGING PARTNER · CO-CHAIR, AI PRACTICE

Chris co-leads FRB's AI Practice and runs the Newark AI-native incubator, where he co-piloted the firm's litigation subscription model. A business litigator with a decade-plus representing owners, investors, and executives in high-stakes disputes, he writes and speaks on translating AI ethics into defensible compliance. Host of the *Moral Machine* podcast.

NJ Supreme Court Ethics Committee · Chair, Hudson County Bar AI Committee · NJSBA AI, Cybersecurity & Data Privacy Committee · AIGP / CIPP-US (candidate)

Moish E. Peltz

CO-MANAGING PARTNER · CO-CHAIR, AI PRACTICE

Moish co-chairs FRB's AI Practice, chairs the IP Practice, and co-piloted the firm's AI litigation subscription. He advises technology, AI, and digital-asset companies on IP, emerging tech, and regulatory exposure, and hosts the *Block & Order* podcast. Widely quoted in *The Washington Post*, NPR, *Time*, and *Law360*.
